DETAILED ACTION

1. The examiner withdraws the rejection of claims 1, 2, 9-13, 17, 18 and 20-22 under 35 USC 112, 2nd paragraph, based on applicant's amendments.

Allowable Subject Matter

2. Claims 1-22 are allowed.
3. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is the inclusion of the following limitations in a method and apparatus directed towards increasing a quality of streamed media information:

“ the gateway proxy device adapted to automatically request a second copy of the media information from the media server, the automatic request responsive to a meta tag that identifies other version of the media information that are present on the media server, the second copy of the media information being a second version of the media information associated with a second bandwidth”

This subject matter is not found in the prior art, nor is it obvious in view of the prior art. The closest prior art, U.S. Patent 6,185,625 by Tso et al., does disclose a cache with different versions of the same media information. However, Tso et al. does not disclose the limitations cited above in regards to requesting the second copy from the media server and this request being an automatic request responsive to the meta tag information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
